Mr. Harold Weisberg

I have read your latest book Case Open. (THANK YOU) & have also read Mr. Posner's book (Case Closed) the minute it hit the shelf (NO THANKS). After I was finished and heard the media reviews, I felt hurt and angry, (DOES THIS GUY HAVE CONNECTIONS IN HIGH PLACES)? not because of Posner's weird idea of historical reality, but for the support the media has given him, [redacted] especially Charlie Rose who feared Posner as a literary saint on his talk show. I am not a lawyer or writer by profession, just a concerned individual who has kept himself informed as much as possible about the medical and legal evidence and theories concerning the assasination of the President. I have kept myself abreast with information about this trajedy and the others of the late 60's but the President is the President and he must come first.
I have often wondered WHY people like Patrick Moynihan (SENATOR), Thomas Tip Oniel (LATE SENATOR) and certain members of the Kennedy family have remained silent, I would like to hear your idea's if at all possible.

I agree that this mass book is based on falsehoods and stolen investigative measures. I fear that this mass theories could be taken if not wholly but even in part, as a truth by the public scares the hell out of me. I say this because of the publics ignorance of the facts and its laziness to keep it self informed. On the publics part I find this ignorance appalling, as far as the media goes I am still convinced of its roll in the assasination cover-ups.
But I thank you and people like Dr. Wecht, Mark Lane and the Gaeton Fonzi's and others for not being ignorant, lazy or afraid to ask the questions that need to be asked and hopefully someday this wrong will be righted.

Sincerely
